

Working student in Portfolio Management (m|f|d)

📍 München

🏠 hybrid/vor Ort

🕒 Stundenweise

MEAG is part of the Munich Re Group and is also one of the most important asset management companies in the world. We are looking to recruit for our Active Fixed Income - Macro team in the Public Markets division at the Munich location as soon as possible.

Shape the future with us:

- ◆ Analysis of global macro-economic developments in order to support the team in their decision making
- ◆ Development and maintenance of quantitative tools for identifying of investment opportunities
- ◆ Close cooperation with portfolio managers in the daily steering of portfolios
- ◆ Preparation and active participation in investment meetings

What you bring:

- ◆ You are studying for a University degree with focus on econometrics/mathematical finance/statistics
- ◆ Keen interest for asset management and FI-Markets (G10) in particular
- ◆ Experience with time-series/statistics analysis packages in Python or R
- ◆ You have a good knowledge of German and English, at least at B2 level

These benefits await you:

- ◆ **Flexibility:** Mobile working options (ability to work from home several days a week), coordination of your weekly working hours with your team, enabling you to balance studies, work, and leisure.
- ◆ **Development:** A steep learning curve with practical content and an excellent onboarding experience.
- ◆ **Other:** Excellent public transport connections, exciting events, free daily lunch in our cafeteria, complimentary hot beverages and water, underground parking with e-charging infrastructure, and much more!

*This list is based on company agreements that may vary at different locations and are subject to change at any time. The list is for information purposes only. We accept no liability for its content.

MEAG stands not only for collaborative partnerships with our clients, but also for equitable treatment of applicants and employees, regardless of gender. If we use masculine pronouns here, then purely for ease of legibility. Seriously disabled applicants will be given preferential consideration over other applicants if otherwise similarly suitable for the position.
